Scan Wizard

Scan Type
Select whether you want to scan a single website or analyze the results of a previous crawl.

Scan type

 Here you can scan a single website. In case you want to scan a single web application and not the whole site you can enter the full path below. The application supports HTTP and HTTPS websites.

Scan single website

Website URL:

 If you saved the site structure using the site crawler tool you can use the saved results here. The scan will load this data from the file instead of crawling the site again.

Scan using saved crawling results

Filename: 

 If you want to scan a list of websites, use the Acunetix Scheduler. You can access the scheduler interface by clicking the link below.
<http://localhost:8183/>
